## The Family Wash Is Quickly Done With an Apex

Another Suggestion for the Men  
of the Family to Take Note of

With the Apex the average family wash can be done in an hour and at very small expense.

Most Washing Machines pull, mangle, wind and scrub clothes in a manner that they will not stand. The Apex is different. The gentle swinging motion of the Apex across the tub and against the Apex in each side cleans the clothes perfectly and without injury.

Another Important Thing—whenever does the washing is not worn out and tired out, either. The Apex saves all the hard work of laundering and makes it a pleasant, quickly accomplished job.
